Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****."The stock market is a device for transferring money from the impatient to the patient." Warren BuffettMr Buffett's strategy of patience has proven to be the most astounding in history. He has earned 20.8 a year compounded over 50 years including recessions and wars. He does NOT trade or speculate. He holds companies for a long time. Buffett has proved the market is NOT efficient and stock-picking can work for a few. Buffett is the genius who found a way to beat the market. It is almost impossible for most humans. The average investor earned just 3.79 while the stock market earned 11.06 over the last 30 years. DALBAR QAIB Most jump from one "popular" security to another just in time for it to go down. So they earn just 3.79 ; paying more for less. Buffett has been patient for over 60 years: his \$6,000 from paper routes has grown to \$72 billions. You can become wealthy by choosing the best investment strategy in the 21st century: The Hub and Spoke strategy. Use the best of both worlds: market index and Buffett's stock. I have managed sales departments in securities firms. I know how firms make money from your money. I've tried most strategies myself. Jim O shaughnessy has tested many of them. There are almost as many "investing" strategies as people who work on Wall Street. There are institutional and retail investors who put up the money and take all the risks. And there are salespeople who take profits from the investors. You have your choice but there are three considerations first: trust yourself or others, your futures will change, wealth-building takes time.
