THE FUNDAMENTAL THEOREM OF ALGEBRA

Book Condition: New. Publisher/Verlag: Springer, Berlin | The fundamental theorem of algebra states that any complex polynomial must have a complex root. This book examines three pairs of proofs of the theorem from three different areas of mathematics: abstract algebra, complex analysis and topology. The first proof in each pair is fairly straightforward and depends only on what could be considered elementary mathematics. However, each of these first proofs leads to more general results from which the fundamental theorem can...
